IBS Announces Sixteen Percent Year-Over-Year Growth for H1 2014

September 2, 2014, OAKBROOK, IL

Interactive Business Systems, Inc. (IBS) announced today a sixteen percent increase in revenues for the first half of 2014 over the first half of 2013. The company credits its expert sales team's ability to build winning staffing and IT solutions for customers, as well as the market's growing interest in its offshore capabilities.

Key Growth Drivers for IBS

- **Flexibility:** "Our internal account teams excel at creating value-added services tailored to each client's goals," said Jeff Jorgensen, Vice President at IBS. "It's what customers find so attractive about working with us and is a key factor in our ability to retain clients. We place an emphasis on listening to our clients and ensuring that our consultants are the right fit the first time."
- **Offshore Outsourcing:** IBS has a very adaptable model for its offshore services that allows it to quickly expand or reduce team size as needed and locates consultants onsite, offsite, offshore and in flexible blended combinations that best suit the client and project. In addition, IBS offers clients access to qualified resources not available locally, and without the time-consuming and costly internal hiring process. These offshore advantages allow IBS to be extremely advantageous for mid-size and smaller clients.
- **Timely Service Offerings:** With a forward-looking perspective, IBS stays on the leading edge of IT services that meet clients' current needs. Mobile development, custom app development and application maintenance solutions are among the in-demand services IBS offers.

About Interactive Business Systems, Inc.

IBS is a technology solutions and IT staffing company known for achieving business objectives through technology excellence. We partner with IT managers to identify just the right IT staffing or solutions-based consulting services that get the job done right the first time. IBS customizes each engagement and offers flexible delivery options so clients experience maximum value of their investment.
