IBS Announces New Cincinnati Branch Manager

September 18, 2013 OAKBROOK, IL

Interactive Business Systems, Inc. (IBS), a leading provider of custom IT solutions and IT staffing services, announces Corey Graves as the new Branch Manager in Cincinnati.

Graves joined IBS as an Account Executive in late 2010. In 2012, he received the honors of Top Performer, Salesperson with the Most New Clients, and Most Improved Salesperson. He became Cincinnati's Assistant Branch Manager in January, and was recently named a Top Performer for 2013.

Turning the reins over to Graves is company Vice President Jeff Jorgensen. "As Assistant Branch Manager, Corey has proven to lead by example," said Jorgensen. "He not only stays focused on his own production, but keeps himself and others focused on office goals and the bigger picture."

Graves attributes his success to a couple of different factors. "The only way to be truly satisfied is to do what you believe is great work," Graves said. "I've been here for nearly three years, but I still feel the same level of exhilaration I did when I first started."

"We've got a tremendous staff here in Cincinnati," Graves said. "They've all supported me along the way, and I'm very excited for what the future holds."

Jorgensen shared a similar level of optimism, expressing confidence that the Cincinnati branch will continue on its growth trajectory under Graves' leadership through the end of 2013 and beyond.
